Through our proven process, we have supported not only thousands of individuals with disabilities be successful but have also assisted hundreds of local businesses with their staffing needs.

Following the retirement of our Founder, on October 1st we took the step of converting to a 501c3 non-profit organization. Our current services will continue uninterrupted with no change in the quality or cost of service. We will continue to work with Opportunities with Ohioians with Disabilities and county Department of Developmental Disabilities.

Greenleaf is especially excited to announce the formation of our inaugural Board of Directors.
